## ❖ DEMOLITION DISCLOSURE FORM ❖

**PROJECT ADDRESS** \_\_\_\_\_

-

Effective January 1, 1991 Assembly Bill 2791 required applicants for demolition permits to comply with certain Environmental Protection Agency (EPA) and South coast Air Quality Management District (SCAQMD) regulations concerning asbestos containing materials. **(This also includes re-roof tear off's when asbestos containing materials are involved).**

The following questions must be answered before your application for a demolition permit can be processed.

- 1. Have you complied with the requirements of the South Coast Air Quality Management District under Rule 1403?** This rule requires that you notify the SCAQMD 10 days before you begin the demolition project.

☐ YES

☐ NO

SCAQMD  
Asbestos Notifications  
File #55641  
Los Angeles, CA 90074-5641  
909/396-2336

- 2. Is the structure asbestos free?** (If you are uncertain, you should contact an asbestos consultant to investigate the structure before answering this question).

☐ YES

☐ NO
